

FISCAL NOTE

SB 1797 - HB 1748

April 5, 2001

SUMMARY OF BILL: Requires an effluent filter to be part of each new subsurface sewage disposal system that uses a pump for delivery of effluent to a disposal system. To be approved the filter must meet certain criteria, including:

- ANSI accredited organization certification or NSF international certification; and
- Filter housing with protection equivalent to standard outlet tee or baffle if the filter cartridge is removed.

ESTIMATED FISCAL IMPACT:

MINIMAL

For information purposes, the Department of Environment and Conservation currently is required to perform a final inspection after the installation of new subsurface sewage disposal systems that require pumps. No additional inspections would be required.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James A. Davenport".
